

## YL-55E/30R

### BASIC TECHNICAL DATA

|                   |                       |
|-------------------|-----------------------|
| Overall thickness | 3.0 mm                |
| Weight            | 3.4 kg/m <sup>2</sup> |
| Maximum width     | 450 mm                |

### CONSTRUCTION

|           | TOP                  | BOTTOM               |
|-----------|----------------------|----------------------|
| Material  | NBR (nitrile rubber) | NBR (nitrile rubber) |
| Colour    | Light Green          | Black                |
| Structure | Rough texture fabric | Rough texture fabric |

### TECHNICAL DATA

|                           |           |
|---------------------------|-----------|
| Tension layer             | Polyester |
| Tension for 1% elongation | 26 N/mm   |
| Antistatic bottom surface | Yes       |
| Minimum pulley diameter   | 70 mm     |

### OPERATING TEMPERATURE

|                     |       |                  |
|---------------------|-------|------------------|
| Minimum temperature | -20°C |                  |
| Maximum temperature | +60°C | Short time +70°C |
